## **ABOUT INTEGRATED CANCER TREATMENT & RESEARCH CENTER :**

Bharatiya Sanskriti Darshan Trust's Integrated Cancer Treatment and Research Center (ICTRC), Wagholi, Pune is in the field of Integrative Oncology since 1994.

ICTRC is recognized as 'Center of Excellence' by Ministry of AYUSH, Government of India, New Delhi; who has also provided Grant-In-Aid for establishing ICTRC. The institute is also funded by Department of Atomic Energy, Government of India, specially for developing Radiotherapy Department. Tata Trusts have provided us funds for establishment of Cancer Panchakarma Hospital, various research laboratories and research projects. We are proud to announce that ICTRC is affiliated to Indian Cancer Society. We have collaborations with well-known institutions like ACTREC (Navi Mumbai), a Research wing of Tata Cancer Center; Sahyadri Hospital (Pune), HCG Manavata Cancer Center (Nashik), CSIR-NCL and IDRAL (Pune).

At our center, we treat cancer patients with Ayurvedic treatment along with conventional cancer treatment like chemotherapy, radiotherapy and onco-surgery. Our center also has cancer diagnostic facilities. The adjunct Ayurvedic treatment given by us appears to be beneficial in many cancer patients for improving quality of life, increasing disease free survival and for minimizing the side-effects of radiotherapy and chemotherapy. We have also developed an excellent research facilities with the help of Tata Trusts and are conducting research on the effectiveness of integrated cancer treatment approach using modern technologies.

The center is documenting outcomes of integrative treatment in various types of cancers and presenting & publishing it in various scientific conferences and peer reviewed journals. We have filed and published 8 patents of Ayurvedic formulations nationally and internationally used in adjunct treatment of cancer.

ICTRC has been organizing International conferences on "Ayurved for Cancer" (ICAC) every 5 years since

1997, with the aim of putting forth clinical and scientific research in integrative approach of oncology on one platform. The 6th ICAC will be organised on 9th, 10th & 11th December, 2022 by BSDT's ICTRC, Wagholi, Pune.

## SCIENTIFIC SESSIONS

There will be total 11 Scientific sessions over the three days conference and consist of plenary talks, lectures from eminent speakers, oral & poster presentations.
